WE ARE
HASENKOPF

WE HAVE ONE GOAL: to inspire our customers and partners – from consultation to installation and usage of the product.

With our product solutions, we create feel-good spaces for unique memories and moments. We want to fulfill every wish and build pieces of furniture that you have always dreamed of.

As Europe's largest processor of solid surface and other high-quality materials, Hasenkopf offers individual and sustainable solutions. With many years of experience in the production of unique and series products and the highest quality standards, Hasenkopf makes simple things unique and unique things simple: Simply Special.

INNOVATION AND TRADITION

Hasenkopf Industrie Manufaktur GmbH embodies tradition and innovation in equal measure. As a respected company, we set standards in the processing of solid surface materials and other high-quality materials.

The focus is on customised product solutions for architecture, design and craftsmanship at the highest level.

HOW AND WHEN
DID EVERYTHING
STARTED?

60

YEARS OF EXPERIENCE

We have been realising extraordinary customer wishes for more than half a century and respond flexibly to individual requirements.

180+

EMPLOYEES

We are an internationally active industrial manufacturer with more than 180 employees specialising in solutions for wood and high quality solid surface and acrylic materials.

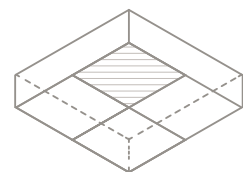

We see ourselves as an industrial manufacturer for craftsmanship excellence, reliable quality and customised perfection.

8.000+

CUSTOMERS

Our customers benefit from the advantages of our industrial production, such as fast Order processing, proven quality, efficiency and just-in-time delivery.

300.000+

PROJECTS

Using the latest technology, we not only produce unique one-offs on 22,000 m² of production space, but we also produce perfection in series.

OUR VALUES

TRUSTING PARTNERSHIP

We are a strong team and a reliable partner.

LIVED QUALITY

Uncompromising standards fulfil the highest demands in every area.

SUSTAINABLE RESPONSIBILITY

We take responsibility for our actions, as well as for the environment and society, to ensure our long-term economic success.

UNIQUE SOLUTIONS

The individual wishes of our customers are at the centre of our actions.

COURAGE FOR THE NEW

We tread innovative paths. That makes our service „Simply Special“.

SUSTAINABILITY AT HASENKOPF

AT HASENKOPF we are aware of our responsibility. We are aware of our responsibility towards the environment and society. Sustainability and ESG (Environmental, Social, Governance) are not just buzzwords for us - they are an integral part of our corporate philosophy and our daily work.

We take a holistic approach to effecting positive change and shaping a sustainable future.

WHAT DOES THAT LOOK LIKE FOR US?

Our commitment to a better future.

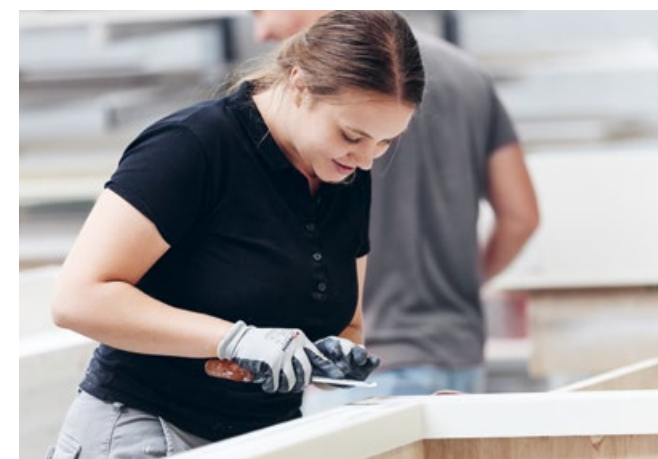

SUSTAINABLE PRODUCTION

Our mission at Hasenkopf is to create innovative solutions for a sustainable future. We know that this is an ongoing process that requires continuous commitment.

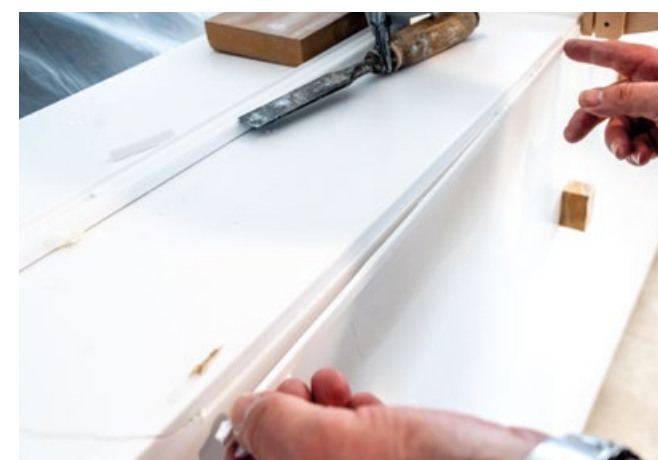

SOCIAL

We are committed to the well-being of all by providing a safe working environment, promoting diversity and inclusion, and engaging in social initiatives in our community. Our partnerships are based on fairness and trust.

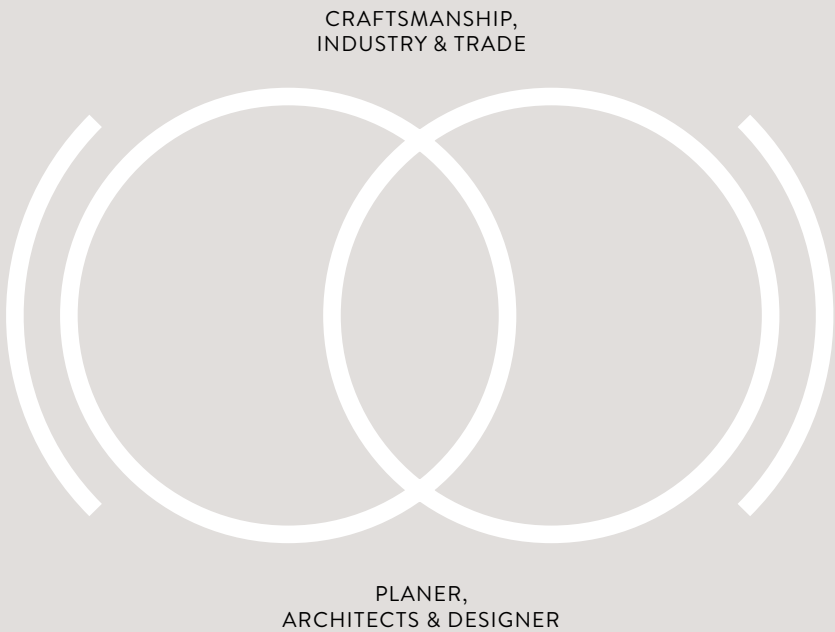

ENVIRONMENTAL AWARENESS

We continuously strive for resource efficiency and minimise our environmental footprint. We pursue ambitious goals to reduce energy consumption, waste production and emissions.

PRODUCTION SETUP

We are an industrial manufactory. With the latest technology and 22,000 m² of production space, we not only manufacture unmistakable one-of-a-kind products, but also produce perfection in series as an efficient supplier specialist. That is why we call ourselves an industrial manufacturer, because our customers benefit from the advantages of industrial production, such as fast order processing, proven quality, efficiency and ‘just in time’ delivery.

MANUFACTORY

We live and breathe craftsmanship. We fulfil even the most unusual customer requests and respond flexibly to individual requirements – even for just one item.

PASSION, QUALITY & PRECISION

INDUSTRY

We are deeply embedded in the industry. As an efficient supplier, we produce perfect series.

HOLISTIC SOLUTION

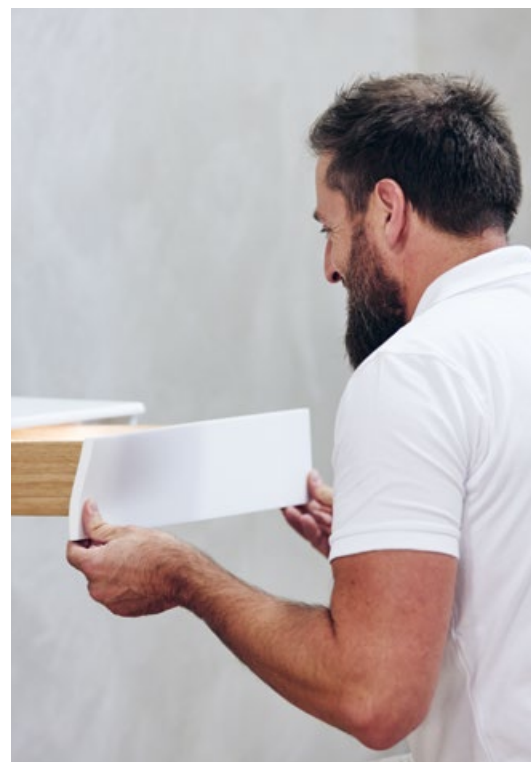

FROM THE IDEA TO THE INSTALLATION

With us, every order is supervised by experienced specialists – technical advice, design and visualisation go hand in hand with production and logistics. Supported by a state-of-the-art machine park, we implement the most demanding projects.

SERVICE AND ADVICE

- A personal point of contact who will support You throughout the entire order, both technically and commercially
- Advice in advance on construction and design, on site if required
- Provision of material and colour samples of the materials used
- Creation of CAD drawings and visualisation using 3D models for better illustration
- Personalisation with lettering and logo, as milling, inlay or raised structure
- Ready-to-mount delivery, including installation by experienced specialists on site if requested
- Hasenkopf offers training and further education measures
- Online service: sample order, colour finder, PDF generator, product configurator
- Professional repair and care of the finished objects
- Reconditioning & retrieval

QUALITY

We have built our reputation on quality and excellent service through experience, expertise and flexibility in meeting individual specifications.

- Highest quality 'Made in Germany'
- In-process and final inspection
- Customised perfection with the highest fitting accuracy
- Up to 10 years guaranteed lightfastness for selected colours
- Built to last to high-quality workmanship

MATERIALS AND FUNCTIONAL INTEGRATION

- Wide range of solid surface and wood-based materials in different thicknesses
- Wide range of colours and structures to realise your design ideas
- Combined installation with a variety of other materials such as solid wood, Dekor-/ Fenix®, HPL, MDF, chipboard and multiplex, as well as precious metal, glass, mirrors and textiles Customised substructures and furniture carcasses
- Planning and integration of light and electronic applications

WOOD

- + Natural and renewable
- + Easy to work with
- + Various types of wood/wood-based materials
- + Can be combined with other materials

A natural raw material, which has stood for durability, warmth and versatility for thousands of years.

WOOD MATERIAL

Special decors available on request.

MASSIVE WOOD

- Maple, beech, oak, ash, spruce, American walnut & smoked oak
- Raw, lacquered or oiled

MDF

- Profiles in white, foil-coated
- MDF real wood veneer in maple, beech, oak and American walnut
- Primer foil

SPREADING WOOD

- Very stable
- Birch multiplex and beech multiplex

SPAN PLATE

- Lightweight & resource-saving
- Decors in white, black, silver, grey, anthracite

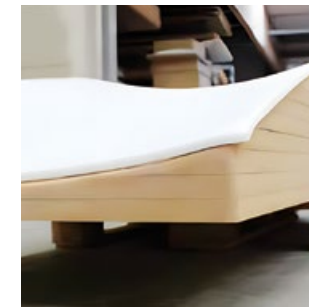

SOLID SURFACE

- + Solid, durable and robust material
- + Can be glued seamlessly and without seams
- + Pleasant, non-porous surface
- + Long-lasting and therefore sustainable
- + Homogeneously dyed
- + Can be thermoformed
- + UV-resistant and light-fast
- + Translucent with low material thickness and/or translucent colours
- + Repairable
- + Easy to clean and hygienic

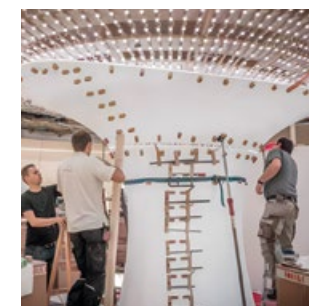

PROCESSING METHOD

Solid surface material is an innovative material made from a mixture of mineral components and synthetic resins. It is characterised by a high degree of flexibility, strength and resistance.

MOULDING

- 2D or 3D thermal moulding
- Maximum precision and individuality

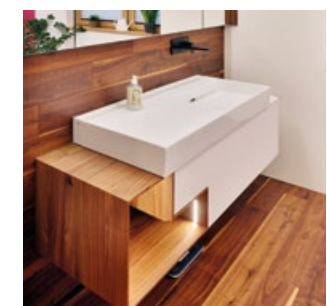

BONDING

- Exact dimensions
- Seamless connection of individual pieces
- Almost infinitely large areas

POURING

- Individual wishes for high quantities requests
- High quality Acrylic casting process

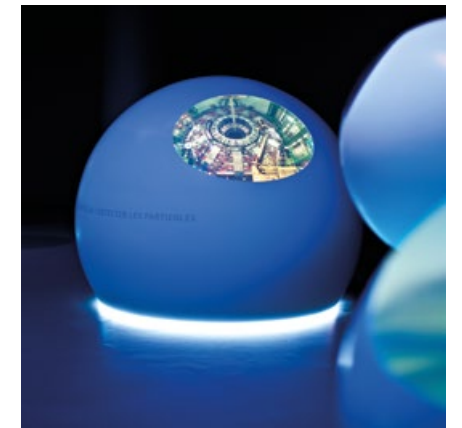

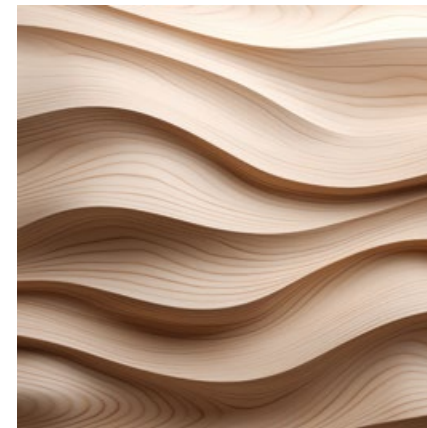

EXCELLENT RESULT

- Combining our solid surface and wood products
- Network for professional installation

TECHNICAL PROCESSING OPTIONS

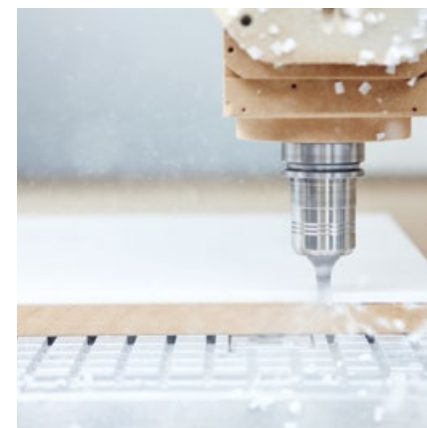

MANUFACTURING TECHNIQUES AND DESIGN SOLUTIONS

- Processing of solid surface materials, wood and other premium materials, such as high-quality gypsum fibreboards
- High-precision machining thanks to our large number of 3- and 5-axis CNC machining centres
- Special casting processes for basins and bathtubs
- Thermal moulding of solid surface panels for two and three-dimensional object construction, e.g. organic and polygonal designs
- Installation without visible joints due to material bonding with solid surface material
- Customised batch sizes according to customer requirements, from one-offs to series production
- Surface finishes from matt to high-gloss, from velvety soft to deeply textured
- Integration of different material combinations
- Personalisation with lettering and logo, as milling, inlay or raised structure
- Translucent depth milling for rear backlighting
- Finishing with the latest laser technology: lettering, logo or graphics

SURFACE TREATMENT: FRESCATA

The processing technique of milling enables us to find a customised solution for every product. From wave patterns, geometric designs, dots or other organic shapes to ornaments, lettering, logos and photorealistic images.

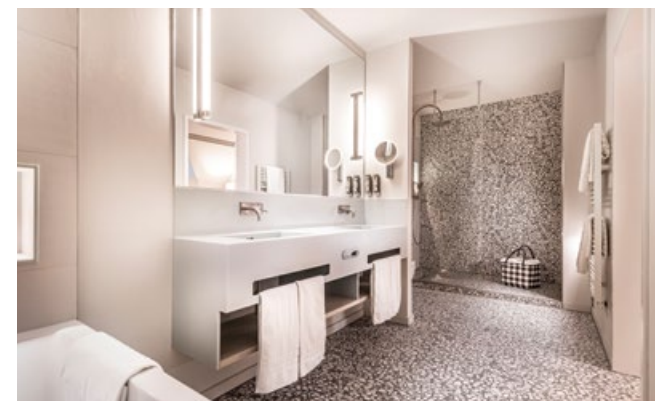

The Hasenkopf Frescata collection offers a selection of over 30 different structures.

MAJOR PROJECT

ELBPHILHARMONIE HAMBURG

More than 10,000 individual wall and ceiling elements made of GIFAboard gypsum fibre concrete were manufactured by Hasenkopf using modern 5-axis CNC technology, and more than 1 million shell-shaped recesses were milled into the surface of the so-called “white skin”, precisely according to the computer-calculated acoustic model of the hall. The result is an audiovisual concert experience of the highest order.
