HASENKOPF

Since 1964, Hasenkopf has stood for craftsmanship, innovation and excellence.

Today, we distinguish ourselves as experts in the processing of solid surface materials and a reliable supplier for our partners.

With a wide range of production techniques, we realize outstanding projects made of premium materials.

Chipping, molding and casting processes give us the opportunity to realize individual designs for sanitary, living or medical areas, facades as well as indoor and outdoor projects.

Our partners rely on our many years of experience and our focus on perfect craftsmanship.

Our high demands on quality result in unique pieces in individual and series production.

As a regional supplier specialist, we offer our customers comprehensive service during the planning and realization of every project. With more than 55 years of experience in the industry, we know how important it is to be able to respond flexibly to our customers' needs.

With our bathtubs, we cover a wide product portfolio in various sizes, shapes and colors.

In addition to curved and cast bathtubs, we also offer a variety of models of freestanding bathtubs. Esthetically, our bathtubs complement every dream bathroom and enable moments of time-out and relaxation with their velvety soft surface.

We make the simple unique and the unique simple.

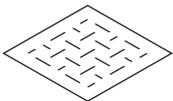

Simply Special

BATHTUBS MADE TO MEASURE

A model can be selected from three basic shapes, or an individual design can be created on request. Tub bodies can be designed with specific dimensions - entirely according to the customer's ideas. With customized bathtubs, it is not only the dimensions of the cover plate or apron that can be variably adapted. In addition to niche back panels, customers have the option of extending their bathtub with a step entrance or a storage compartment.

The bathtubs are available in three standard colors, or a color of your choice can be ordered. For the installation of the customized bathtub, we offer the matching drain set or an installation set if required.

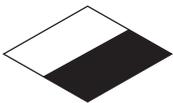

Solid surface materials allow an almost unlimited variety of designs compared to other materials and offer many different advantages in one.

MODELS

With a made-to-measure bathtub, you can choose from three basic shapes that fit esthetically into any wellness area to suit the size of the room. Whether purist, waisted or soft – each basic shape is available in three different sizes.

BWP – PURISTIC SHAPE

BWT – WAISTED SHAPE

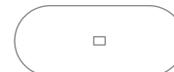

BWS – SOFT SHAPE

CROSS SECTIONS

The bathtub models from Hasenkopf give the user maximum comfort and space when bathing thanks to their flat tapered front sides. The waisted and soft bathtub series each contain an additional model with a steeply sloping front. These bathtubs are suitable for bathing as well as showering and are particularly suitable for installation in smaller bathrooms.

DRAIN COVER

For a uniform look, all made-to-measure bathtubs are supplied with a matching color drain cover made of solid surface material. The bath and drain cover are coordinated so that the drain cover fits flush into the bath and is integrated into the base. For bathtubs in special colors, a drain cover in the same color can also be made of solid surface material or, alternatively, a round standard drain without cover can be offered.

DETAILS

- Size with standard color: 120 x 85mm
- Size for special color: 75 x 75mm
- Fits for drain sets Viega & Multiplex Trio
- Compatible with on-site drain sets
- Drainage area easy to clean due to the inner radius
- Snug fit due to conical feet

DRAIN & OVERFLOW FITTINGS

The bathtubs are fitted as standard with the Viega Multiplex and Viega Multiplex Trio are offered. These are fitted in the Hasenkopf factory and can be installed on site. Other drain and overflow systems are also compatible for the on-site installation.

VIEGA MULTIPLEX

- With drain and overflow function
- Incl. chrome-colored equipment set M1
- Optionally with turn handle made of solid surface material
- Drainage capacity approx. 0.92 l/s
- Space requirement under the tray: min. 115mm
- Space requirement behind tray: min. 55mm

VIEGA MULTIPLEX TRIO

- With drain and overflow function
- Tub inlet via the overflow hole
- Incl. chrome-colored equipment set MT5
- Drainage capacity approx. 0.92 l/s
- Space requirement under the tray: min. 115mm
- Space requirement behind the tray: min. 55mm

OPTIONS

With additional processing options, every customer can create their own individual dream bathtub from the basic body. Configure to measure. In this way, the solid surface tubs can be seamlessly integrated into a color-matched top panel which can be installed. Additions of niche back panels, aprons, storage compartments or steps are possible as well as conceivable. Individual specifications for bathtub size and shape can also be implemented..

COVER PLATE

- Solid surface counter top of matching color
- Tub body and cover plate seamlessly bonded
- Optional field mounting holes
- Edge processing with radii or chamfers according to customer request

NICHE BACK WALL

- Seamless bonding of solid surface back-splash to counter top
- Optional inner corner design as 5mm or 9mm fillet
- Edge processing with radii or chamfers according to customer request
- Loose for on-site installation

SHORT STRAIGHT

- Seamless bonding of solid surface up-stand and top panel
- Various edge heights or complete paneling from top to bottom possible
- Edge processing with radii or chamfers according to customer request
- Optional surface treatment with Frescata®

CURVED APRON

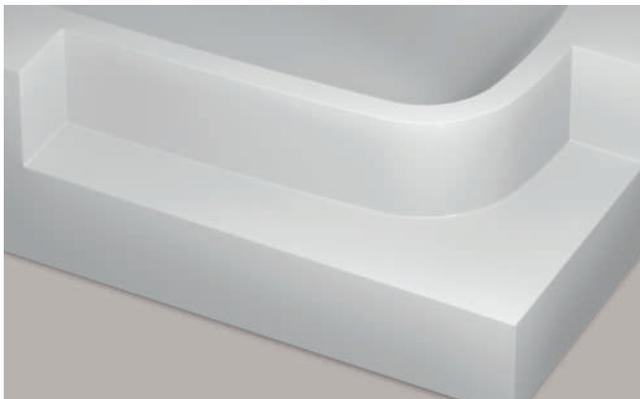

- Seamless bonding of solid surface back-splash to counter top
- Various edge heights or complete paneling from top to bottom possible
- Extension of the tub body to create a free-standing tub
- Edge processing with radii or chamfers according to customer request
- Optional surface treatment with Frescata®

STORAGE TRAY

- Seamless bonding of apron and storage tray
- Exactly made to measure
- Optionally with LED lighting, shelf / access panel for installation or maintenance work / substructure
- Edge processing with radii or chamfers according to customer request

STEP ENTRY

- Extending the apron to a seamless bonded stepped entry
- Exactly made to measure
- Edge processing according to customer request
- Optionally with substructure

INDIVIDUAL TUB BODY

- Solid surface top in matching colors
- Seamless bonding of body and cover plate available upon request
- Optionally available with holes for field mounting of fittings

As a partner to the trade, comprehensive service from consultation to delivery is our top priority.

Therefore, our qualified staff will be happy to answer your questions.

COLORS

STANDARD COLORS

All customized tubs can be ordered in three standard Miraklon® colors:

Edelweiss, Classic White and Modern White.

The following panel materials are recommended for additional color-matched finishes in addition to the standard colors:

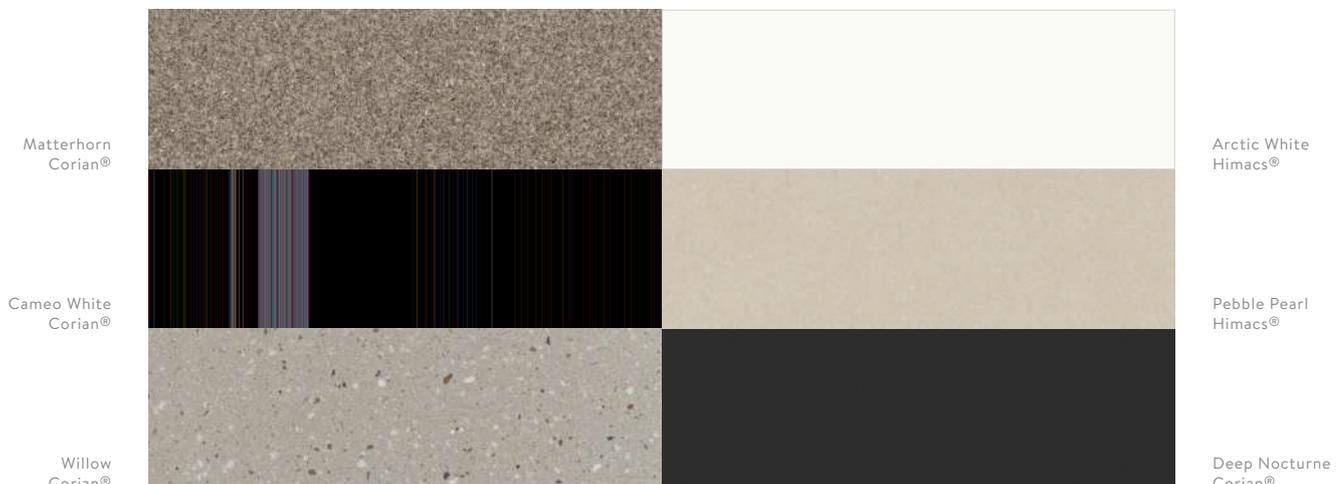

Miraklon® Edelweiss – Corian® Glacier White

Miraklon® Classic White – Himacs® Alpine White

Miraklon® Modern White – Corian® Designer White

SPECIAL COLORS

Custom colors are available for the BWP-160-70, BWT-D-170-70, BWT-170-70, BWS-D-160-65 and BWS-160-65 models, as well as individual tub bodies. More than 200 solid surface colors can be requested for the production of custom bathtubs upon request. Included are 6 classic colors that we can recommend without hesitating:

ASSEMBLY KIT

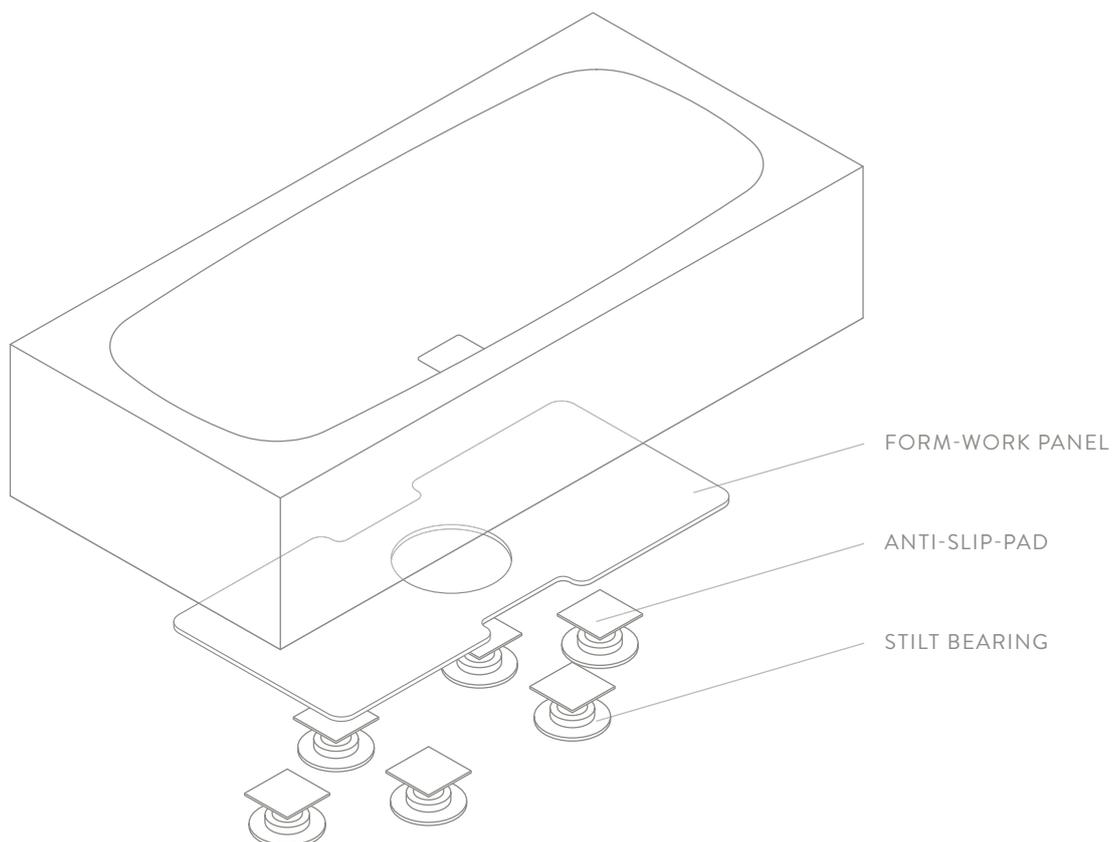

We offer an optional installation kit to simplify and facilitate the installation of a custom tub. This kit has several advantages for our customers during the installation of the tub

ADVANTAGES

- Height adjustment range: 30 - 123mm
- Even weight distribution
- Acoustic decoupling

CONTENT

- Waterproof form-work panel with 15mm thickness
- Stilt bearing: Adjustment range 30 to 123 mm
We ask that you state the installation height of the tub when ordering
- Anti-slip pad and anti-slip mat with acoustic isolation

ASSEMBLY

To any customized bathtub system, the appropriate accessories are offered to facilitate installation and assembling.

OPTIONAL ACCESSORIES

- Installation-kit
- Solid surface adhesive and grinding set
- Glue gun for solid surface adhesive
- Drain and overflow fitting and equipment set

ATTENTION

The space required for the drain set under the bathtub must be strictly observed. The floor must be lowered if necessary.

ASSEMBLY RECOMMENDATION

In order to facilitate the installation of the bathtubs, a step-by-step installation guide is provided. All processing, installation and use instructions must be followed to ensure correct installation.

The installation recommendation for bathtubs is available on request. A responsible sales representative can be contacted at any time.

ASSEMBLY TRAINING

Installation training courses are offered for partners and customers, teaching the techniques for professional installation of the tub systems.

FREESTANDING BATHTUBS

In 2022, four freestanding bathtubs were added to the Hasenkopf product portfolio, so that the customer can choose from an even wider range of bathtub shapes and realize his or her dream of a personal wellness oasis with a freestanding model. If required, Hasenkopf offers the corresponding accessories such as drainage fittings, an installation box or matching accessories for the freestanding bathtubs.

The freestanding bathtubs from Hasenkopf easily bridge the gap between modern, functional design and nostalgic charm. As a design highlight, they also convince with a series of product advantages.

MODELS

Hasenkopf freestanding bathtubs include four types of models, which are characterized by different shapes, sizes, colors and functions, and can be easily adapted to all requirements.

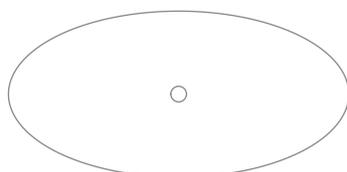

BWO-F – OVAL SHAPE

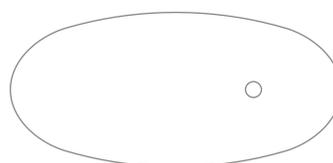

BWN-F – NATURAL SHAPE

BWE-F – ELLIPTICAL SHAPE

BW 8430 – ROUNDED SHAPE

Freestanding bathtubs exude a nostalgic character.

With a high understanding of tradition and the tried and tested, this original design of the bathtubs by Hasenkopf reinterpreted.

The four freestanding bathtub models bear witness to a veritable design evolution: once purely functional bathtub bodies are now adapting to the demands of modern everyday life. Thus, the focus is shifting from a purely utilitarian object to a luxury object that makes you forget the stress of the day.

With overflow function and
white drain cover

BWO-F – OVAL SHAPE

As a freestanding bath from Hasenkopf, the BWO-F offers the greatest possible bathing comfort - even for two people. Without overflow, the generous body skillfully accentuates the aesthetics of any bathroom.

ACCESSORIES

It is particularly comfortable to bathe with the accessories, which not only serve as functional additions to the bathroom but, together with the freestanding bathtubs, are also creating a coherent overall picture.

BATHTUB SHELF

- With holder for mobile devices
- Made of 12 mm solid surface material
- Dimensions: 880 x 200 x 52 mm (L x W x H)
- On request in over 200 solid surface solid surface colors available
- With Hasenkopf logo

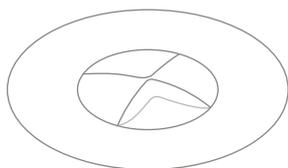

STOOL

- With anti-slip feet
- Made of 12 mm solid surface material
- Dimensions: 400 x 300 x 450 mm (L x B x H)
- On request in over 200 solid surfaces color available
- With Hasenkopf logo

DRAIN COVER

Depending on the bathtub model, a special drain set with a specific range of functions is required. Hasenkopf offers the matching drain set for every freestanding bathtub. The drain cover for each delivery of the respective set is included in the scope of services.

White

Chrome

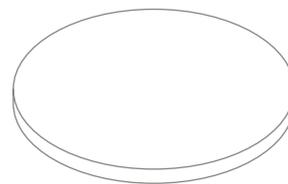

Matt Black

MODEL U

- Fits BWO-F and BWN-F
- Suitable for bathtubs without overflow hole
- Available as an option for the bathtub
- With mechanical drain and overflow function
- Automatic damming up to 420mm
- Drainage capacity approx. 0.5 l/s
- Available in three color variants
- Can be combined with KALDEWEI installation box S-IX

MODEL M

- Fits BWE-F
- Suitable for bathtubs with overflow hole
- Available as an option for the bathtub
- With pop-up and drain function
- Available in three colors to match the bathtub
- Can be combined with KALDEWEI installation box S- IX

Brilliant White

Brilliant Grey

Brilliant Black

MODEL D

- Fits BW 8430
- Included in delivery
- With drain function
- Available chrome-colored with manufacturer's logo
- Cannot be combined with installation box S-IX

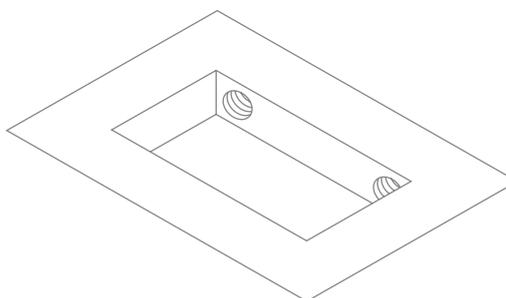

Chrome

INSTALLATION BOX

The S-IX DN 50 installation box from KALDEWEI is recommended for more time savings during bathtub installation. It offers more safety when sealing the drain area and enables a clear installation sequence when coordinating several trades. Even after the screed has been applied and the tiles have been laid, the drain set can be removed. The installation box is available on request when ordering a bathtub.

MODEL S-IX DN 50

- For drain and waste and overflow fittings
- Dimensions: 560 x 330 x 100 mm (L x W x H)
- Can be integrated into floor structure
- Made of waterproof polystyrene hard foam
- Incl. Sealing sleeve for factory assembly
- Two HT pipe bends 45°
- One HT pipe
- A pipe plug
- Connection for drains with 50 mm diameter

ASSEMBLY

To facilitate installation and assembly, each custom bathtub system is offered matching accessories.

OPTIONAL ACCESSORIES

- Drain and overflow fitting and drain cover
- Installation box

ATTENTION

We strongly recommend using KALDEWEI's installation box S-IX to facilitate installation.

INSTALLATION RECOMMENDATION

To facilitate the installation of the customized bathtubs, an installation recommendation explains the installation step by step. All processing, installation and maintenance must be observed to ensure correct installation.

Bath installation recommendations available upon request. Please feel free to contact a sales representative at any time.

ASSEMBLY TRAINING

Installation training courses are offered for partners and customers, teaching the techniques for professional installation of the tub systems.
